LOGESHWARAN R S

Technical Support Engineer | AWS Cloud Foundations Certified | Cloud & Web Application Support Fresher

Erode, India | +91 9514336059 | logeshwaranrs@gmail.com | logeshwaren.netlify.app | linkedin.com/in/logesh-r-s-173a96289

PROFESSIONAL SUMMARY

M.Sc. Computer Science student with an AWS Cloud Foundations certification and hands-on internship experience in AWS web server deployment and cloud infrastructure management. Skilled at troubleshooting deployment, connectivity, and configuration issues across cloud-hosted web applications and IoT systems, with an analytical, detail-oriented approach to identifying and resolving technical problems. Clear communicator and collaborative team member with a strong willingness to learn new tools quickly and a track record of delivering hands-on projects from concept to live deployment. Seeking to apply cloud fundamentals, a troubleshooting mindset, and practical project experience in a Technical Support Engineer role.

TECHNICAL SKILLS

Cloud Support & Infrastructure: AWS Cloud Foundations (Certified), Web Server Deployment, Cloud Infrastructure Management, Cloud Application Deployment, CI/CD Basics (Netlify)

Troubleshooting & Problem Solving: Application Deployment Debugging, Serial/Wireless Connectivity Troubleshooting, Root-Cause Analysis, Object-Oriented Problem Solving

Tools & Version Control: Git, VS Code, Figma, Arduino IDE

Programming: Python, C/C++ (Embedded Firmware), JavaScript

Web Technologies: HTML5, CSS3, Responsive Design

Systems & Connectivity: IoT Device Integration, Bluetooth Serial Communication, Embedded Systems

Core Concepts: Object-Oriented Programming, Agile Basics

INTERNSHIP EXPERIENCE

AWS Cloud Internship — Nminds Academy, Erode *Jun 2026*

- Completed a hands-on internship on Amazon Web Services (AWS), gaining practical, guided experience in web server application deployment and cloud infrastructure management.
- Recognized by the training lead for enthusiasm, professionalism, willingness to learn, and effective teamwork throughout the internship.

PROJECTS

Vizha App — Cloud-Deployed Event Management Web Application — *vizhaapp.netlify.app*

- Deployed and maintained a fully responsive event management application on Netlify via a continuous deployment pipeline, ensuring the live app stayed automatically synced with source updates.
- Developed the registration flow, event listing, and navigation using a mobile-first approach with HTML5, CSS3, and JavaScript.
- Sustained the application in a live, publicly accessible state, demonstrating reliable end-to-end cloud deployment and hosting.

Bluetooth-Controlled Wireless Notice Board — IoT System

- Engineered an IoT notice board that receives and displays messages from an Android device over Bluetooth in real time.
- Programmed an Arduino microcontroller to interface with a MAX7219 LED matrix driver, resolving serial communication and dynamic text-rendering issues.
- Replaced manual notice updates with reliable wireless message broadcasting across a room-scale environment.

Developer Portfolio Website — *logeshwaren.netlify.app*

- Designed, built, and deployed a personal portfolio site from scratch to showcase projects and certifications, optimized for performance and cross-browser compatibility.

CERTIFICATIONS

- AWS Cloud Foundations — Amazon Web Services
- AWS Cloud Internship Certificate — Nminds Academy (Jun 2026)
- Python Programming Certification
- Hardware Workshop Certification

EDUCATION

M.Sc. Computer Science — VET Institute of Arts and Science (Bharathiar University), Erode | 2025–2027 (Pursuing)

B.Sc. Computer Science with Data Analytics — Kongu Arts and Science College (Autonomous), Erode | CGPA: 7.0/10 | May 2025
